

THANK YOU

FOR FAITHFULLY SOWING

Mustard Seed believes that the most effective way to reach out to children, set them free from poverty, and share the knowledge of God is through great teachers.

SLIPERRY ROCK, BORNEO

The seed of expansion is taking shape, and the campus is preparing to open its first elementary school next year.

Thanks to ongoing support, planning and design are already underway to welcome even more children into quality education.

TIRTA'S VILLAGE SCHOOL, PAPUAN HIGHLANDS

Home to 15 teachers and 123 students, Tirta's village school celebrated the addition of a school clinic and a four-stall toilet, bringing the village its very first toilet facility.

WANA WALINGE, PAPUAN HIGHLANDS

This school's journey has been marked by repeated disruptions due to political and tribal unrest. Its future depends on peace returning to the village. Despite this, two Tfn interns and 11 dedicated workers continue to hold out hope for their 92 students.

RIVER VILLAGE, BORNEO

During a youth retreat, nearly 200 vocational high school students gathered, and 24 of them made the life-changing decision to follow Jesus.

SOLO, JAVA

After a transition from a local foundation, the Solo School has gained leadership of a vocational school that helps young people gain essential trade skills.

SUMBA ISLAND

The school development continues to expand, and 2025 marked the launch of Sumba School's first junior high program. As a central hub for village schools across the island, this growing campus supports education throughout the region, with 98 teachers serving 881 children.

MSI'S LAB SCHOOL, JAVA

At the heart of MSI's educational work is the Lab School, a highly accredited school where a variety of Christian programs take root. Within its walls, the Tfn and Elevate teacher training programs, together with youth empowerment centres, touch the lives of more than 1,404 students. These facilities are instrumental in forming indigenous youth who will go on to serve communities across Indonesia, from cities to remote villages, bringing transformation wherever God calls them.

TRANSFORMATION (TFN), JAVA

The TransformNation Teacher-Training Program welcomed 13 new teacher trainees, including five young men. In June 2025, Tfn held its first-ever reunion, bringing together more than a hundred Tfn trainees, interns, and alumni, serving across Indonesia to reconnect, worship, and renew their calling. A team from North America also joined this gathering, visiting the site, meeting teachers, and witnessing firsthand the impact of Tfn graduates in the field.
